

Security & Compliance Playbook

TechNova Solutions - Security & Compliance Playbook

Data Protection:

At TechNova, security is our top priority. All data at rest is encrypted using AES-256 encryption.

Data in transit is secured via TLS 1.3. We enforce strict Role-Based Access Control (RBAC) across all our systems and infrastructure.

Certifications & Compliance:

We are fully compliant with industry standards required for enterprise, government, and healthcare systems.

- SOC 2 Type II Certified: Annually audited by third-party security firms.
- ISO 27001 Certified: Information Security Management System (ISMS) verified.
- HIPAA Compliant: Complete support for Business Associate Agreements (BAA) and PHI safeguarding.

Incident Response SLA:

Our security operations center operates 24/7/365. We guarantee a 15-minute response time for critical security incidents (Severity 1) and full root cause analysis within 48 hours of resolution.
